> ABOUT PROJECT

The residential and hotel complex **WEKARON** is located on the southwestern coast of Phuket on the popular tourist beach of Karon. The geographical location and excellent sea views, as well as the presence of a highly developed tourist infrastructure, make this complex unique for this area of Phuket. Smart architecture, modern technical equipment and professional management will provide the project with maximum liquidity and investment demand.

THE MAP OF PHUKET9 PROJECTS

With a well-coordinated team of architects, engineers, and builders, the **Phuket9** company swiftly progresses from project conception to operational activity. Decades of refined processes demonstrate their effectiveness, enabling us to handle multiple construction projects concurrently. Currently, there are five projects in various stages of completion within the active construction phase, and this is only the beginning.

1 HIGHTONE

Elite village of villas with a sea view located 1 km from Karon Beach in Phuket. Hightone is a well-thought-out eco-friendly and comfortable community, fully focused on long-term residence or vacation.

2 WEKARON

A luxurious resort with breathtaking views of the Andaman Sea, situated in scenic hills just 600 m from Karon Beach, harmoniously blends modern architecture with nature.

5 RAWAYANA

Private pool villas with modern amenities and complimentary access to Rawai Park. Ideal for families, groups, and couples, each villa features a kitchen, BBQ, spacious living area, covered parking, and private poolside entrances.

3 WEKATA3

Popular tourist area of Kata in Phuket. The project is located just 300 meters from the shoreline, with service quality and hotel management elevated to a 5-star level. Small boutique condominium, comprising 130 apartments.

4 PHENOMENON

Phenomenon is a complex consisting of 9 condominiums (separate residential buildings with their own infrastructure and pool), 10 townhouses with panoramic views, and a separate hotel building.

> 650 METERS FROM KARON BEACH

Karon Beach is located on the west coast of Phuket, nestled in a picturesque bay. Its prime location allows tourists staying there to witness the magnificent sunsets that Phuket Island is famous for every evening. Karon Beach is also known for its 'singing sand,' which squeaks due to the high quartz content in its composition. In the southern part of the beach, you can admire a variety of coral reefs, while the northern part is home to restaurants, cafes, and shops.

INTERIOR OF THE ROOMS

FUNCTIONAL

SPACIOUS

MODERN

BEAUTIFUL

Interior design in Phuket9 projects is a process to which we also pay close attention. We are always faced with a difficult task – to create comfortable and attractive apartments that meet the highest quality standards and are attractive both for guests who come for a short time, and for residents who live permanently in the apartments.

For these purposes, we always use only high-quality finishing materials, innovations in the field of interior design, advanced developments in the field of home technologies and discreet decor elements that create coziness. We know exactly what our guests need and are always happy when they are delighted with the apartments we have designed.

SEAVIEW ENDLESS DELIGHT

The view of the Andaman Sea in itself is delightful, we only add to this our modern interiors in which guests can endlessly enjoy the beauty of Phuket.

TOURISM GROWTH

The company Phuket9 has been operating since 2004. Over the course of 20 years, the company's management has succeeded in scaling up from a small developer to the largest construction and management company on the island of Phuket. As of today, the company's assets include various enterprises with different structures and operational principles.

Each division of the company shares a common goal – to make the company's properties attractive to guests and ensure a regular return on investment. This approach enables the company to grow annually and expand its presence in the Phuket market. We are experts in forming a unified strategy for interdepartmental cooperation, creating new products while clearly understanding their future trajectory.
